

Box Turtle

1. Feed the turtle a mixture of chopped dark greens with carrots, red pepper, sweet potato, strawberries, grapes and/or cantaloupe every other day. Crickets and/or mealworms may be given occasionally.
2. The environment should include: bedding (reptibark), a water dish and a food dish (a vita lite and a heat lamp are optional). Hanging vines can be included to give the turtle shade and a sense of cover.
3. The environment should include an area which is 90 degrees F. and an area which is 75 degrees F.
