

Siberian Dwarf Hamsters

1. Change the cage once a week.
2. Take everything out of the cage and put the hamster in the ball. Always wear gloves when holding the hamster so it will feel safe. Make sure it can't roll down any stairs or run into any household pets).
3. Throw away all the shavings in the cage. Wipe out the cage with a damp paper towel and dry it.
4. Refill the cage up to the same level as before, about 2 inches.
**** Be sure to use only pine bedding!**
5. Refill the food bowl whenever it is low.
6. Refill the water bottle with tap water.
7. Put everything back in the cage, making sure the wheel turns freely.
8. Take the hamster out of the ball and put it back in the cage.
9. Close the lid securely.
10. Have fun and enjoy the hamster.
